Memo no : 45/Exam – 2021

Dated 25.06.2021

**Corrigendum**

Please refer to our notification no. 44/Exam – 2021 dated 19.06.2021.

In serial no (B) Fazil Examination the calculation for the preparation of Fazil marksheet may be read as :-

**Fazil Examination - 2021**

(B) For Fazil ( Class -XII Standard ) -Marksheets will be prepared based on following weightage e.g.–

**Subject - English**

80(Theory)		20(Project)
(A)	(B)	(C)
40% weightage on best four marks of Alim ↓ 40% of 80 = 32 Out of 400 if any student gets 300 ( best four marks of Alim) according to weightage he /she will get $32 \times 300 / 400 = 24$	60% weightage on Alim's Board marks according to subject ↓ 60% of 80 = 48 If a candidate gets 70 out of 100 in English in Alim Examination, he /she will get $48 \times 70 / 100 = 33.6$ rounded off to 34	18

So the candidate's marks of English will be  $A+B+C = 24+34+18 = 76$

In case of Geography theoretical marks will be based on 70 and practical on 30, but the process will be same.

  
President
